APP

Enter URL

<https://docs.google.com/forms/d/1FIU3qwoBZEUObykb1>

Link to open when scanned, e.g. <https://example.com/>

 CONVERT TO DYNAMIC TO SHORTEN URL

 Shortening the URL will make your QR Code smaller and easier to scan.

Static QR Code

Content is directly encoded in the image. If you want to be able to update it later, create a Dynamic QR Code.
